Rating 15 Year Residential Limited Warranties	Residential Extra Heavy Duty (inc. stairs) Abrasive Wear StainResist FuzzFree Anti-Shock ColourFast

- Installation to be in accordance with **Northstate Carpet Mills Technical Bulletin** – *Installation Procedures & Requirements, and AS/NZS 2455.1:2007.* In direct-stick installations, all seams and cross joins must be sealed with a seam sealing adhesive. In double-bond and carpet gripper installations, all edges to be seamed must be sealed first with an edge sealing adhesive and an appropriate hot-melt adhesive seaming tape must be applied to all seams and cross joins. All unprotected edges must be sealed with an edge sealing adhesive.
- Northstate Carpet Mills manufactures to a high degree of quality however there are certain visual aspects in making of carpet that must be regarded as within manufacturing limits and do not affect the performance of the carpet.
- Pattern carpet with directional designs may be subject to pattern distortion. Exact colour & / or texture pattern match cannot be guaranteed.
- Carpets with linear designs and in particular, carpets constructed with contrasting colours side by side to produce a sisal effect may be subject to random colour banding across the carpet.
- This carpet may impart shift lines across the width, this is not a manufacturing fault and will not detract from the carpets performance.
- Due to dyelot variations, actual material may vary from sample.
- Full details and explanations can be found on our website www.northstatecarpets.com.au
